PROJECT

- **COLLEGE MANAGEMENT SYSTEM**
 - Designed and developed a responsive College Management System to streamline administrative and academic processes. The system provides an intuitive interface for students, faculty, and administrators, accessible across all devices
- **NETFLIX SHOWS ANALYTICS**
 - This is my major project that I did in my academics. This is a project of data analytics in which one can find the hidden patterns and trends in the Netflix dataset like what genre is most watched, Python language and libraries of python is used to analyze the Netflix data.
- **PERSONAL PORTFOLIO WEBSITE**
 - Developed a fully responsive personal portfolio website to showcase my skills, projects, and professional journey. Designed with a focus on user experience and accessibility,
 - Technologies Used: HTML, CSS, JavaScript and jQuery.
